Brian Sonderen

Oceanside, CA · sond.brian@gmail.com · briansonderen.com · github.com/CutelilCucumber · linkedin.com/in/brian-sonderen-389841237/

SUMMARY

Computer Science graduate and self-directed software developer who builds and self-hosts full-stack web apps, browser games, and technical tools end to end. Comfortable debugging unfamiliar systems, working against third-party APIs, and running Linux infrastructure. Uses AI coding agents daily to research, prototype, and ship faster.

SKILLS

Languages: TypeScript, JavaScript, Python, C, C++, GDScript, SQL

Data: PostgreSQL, Prisma, Supabase

Games & 3D: Godot 4, WebRTC multiplayer, Blender, Physics / GDExtension

Web: React, Next.js, Vite, Node.js, Express, Fastify, REST APIs, JWT auth

Infra: Linux, Docker, Coolify, Traefik, nginx, Cloudflare Tunnel, Tailscale, Git / GitHub

Workflow: AI coding agents, Debugging unfamiliar systems, Technical research

PROJECTS

BAR Replay Radar — replayradar.briansonderen.com 2026

TypeScript · Fastify · Prisma · PostgreSQL · React · Docker

- Indexes 175k+ matches against a third-party API capped at one concurrent request
- Moved ingestion from polling to webhooks mid-project with one shared analysis pipeline
- REST API with 20+ filterable attributes behind full-text and range search

Jam Wizard — brisonder.itch.io/jam-wizard 2026

Godot 4.7 · GDScript · WebRTC · PeerJS · nginx · Docker

- People's Choice award, DevX San Diego Game Jam (October 2026)
- 29 spell components × 11 targeting shapes × 7 modifiers, each one changing every shape
- Host-authoritative 4-player co-op in the browser over WebRTC data channels

Offload (SellShot) — sellshot.briansonderen.com 2026

React · Vite · Express · Prisma · PostgreSQL · OpenAI API · eBay API

- Vision-model item identification returning structured, typed listing data
- eBay OAuth and Inventory API integration for publishing listings
- Prisma schema for users, items, images, tags, and per-marketplace listings

EXPERIENCE

Mobile Obstacle Lead · Ninja Nation

Denver, CO · Los Angeles, CA · 03/2022 – 07/2025

- Independently managed setup, operation, transport, and maintenance of mobile obstacle-course equipment for events.
- Coordinated with customers, hosts, and team members to keep events on schedule; coached children ages 5+.

IT Support · Cascadia Technical Academy

Vancouver, WA · 10/2013 – 06/2015

- Provided hardware and software support across a technical academy; managed and resolved service tickets.
- Configured network routers, operating systems, and IP assignments for lab and library systems.
- Repaired and refurbished donated computer hardware for classroom use.

EDUCATION

Associate of Science — Computer Science · Clark College 2021

Full-Stack Web Development · The Odin Project 2026
